

Want to advance your career?

Get your application in today to do a **Diploma of Project Management.**

Why?

- Seek.com.au has more than 37,000 Project Manager positions listed every day.
- And that's not going to change anytime soon, because the Harvard Business Review says that "...by 2027, some 88 million people around the world are likely to be working in project management, and the value of project-oriented economic activity will have reached \$20 trillion."
- And, to make that happen, the Project Management Institute in their most recent Talent Gap Report 2023, states that "2.3 million people will be needed each year to fill all of the project management oriented positions expected to open by 2030".

Project Management is where the jobs are now and in the future.

The Centre for People Development (CPD) has a limited number of **subsidised training places** (supported by the Government of South Australia) for the nationally recognised Diploma of Project Management (BSB50820).

Full course fee is \$4,250. However, **if you qualify for the SA Government subsidy, CPD is offering a discounted course fee of \$1,425.** For Participant Eligibility Criteria visit <https://finder.skills.sa.gov.au/get-support-for-training/check-my-eligibility>

If you are also a Commonwealth Concession Card holder and meet the required criteria, CPD further reduces this fee to just \$775.

Is this the Course for you?

Diploma of Project Management is for individuals who have project leadership and management roles with responsibility for achieving project objectives, including:

- Managing projects in any context, covering diverse industries, in both the private and public sectors as well as NGOs
- Providing leadership and management for achieving project objectives
- Applying sound knowledge and using a range of specialised, technical and managerial competencies to initiate, plan, execute and evaluate projects

If that sounds like you, then this is the course for you.

Comprehensive materials are provided, including a valuable range of project management tools, templates and instruments, ready for use in your workplace.

You use your own workplace project as course input - this may be rolling out a new service or product; a building or construction initiative; improving organisational diversity and inclusion; a procedural, policy, product or service review or any other workplace project.
